

# NGAN HUYNH THI THANH

## WEB DEVELOPER

### CONTACT

☎ 0904 402 001

✉ huynhngan18112001@gmail.com

📍 Linh Xuan, Thu Duc

### SKILLS

- React
- JavaScript
- Node.js
- Ant Design
- Bootstrap
- HTML & CSS

### LANGUAGES

- English (Advanced)
- Korean(Basics)

### PROFILE

I am an extroverted person with a strong desire to learn and the ability to handle pressure well. I enjoy supporting my colleagues and feel confident working both in a team and independently. I am looking to build a long-term career with a company that offers clear opportunities for growth. Although I can work on backend development with Node.js and MongoDB, my main strength is in frontend development, where I focus on creating smooth and user-friendly interfaces.

### WORK EXPERIENCE

#### Hasaki Beauty & Clinic

Frontend Developer

Oct 2023 - Present  
Hoang Viet, Tan Binh

- Managing and developing the web system for HR and staff at Hasaki.
- I developed reusable React components to optimize code efficiency and maintainability. Also managed the application state using Redux, setting up stores, reducers, and actions, while handling asynchronous actions with Redux Thunk and Redux Saga for smoother data flow.
- Integrated APIs and managed asynchronous data fetching with Axios and Fetch, ensuring efficient data handling. Additionally, I built responsive, mobile-friendly layouts using CSS and Bootstrap, and implemented client-side routing with React Router for seamless navigation.
- Moreover, I designed intuitive and interactive user interfaces using Ant Design to enhance user interaction.

#### Sonix Co.,Ltd.

Internship

Mar 2023 - Jun 2023  
Cong Hoa, Tan Binh

- I gained hands-on experience in mobile app development with React Native and Expo, focusing on user experiences.
- I also worked with the backend team to integrate dynamic data, ensuring the interfaces were interactive and responsive.

### EDUCATION

Hoa Sen University

2019 - 2024

Bachelor of Information Technology - HCM City, Viet Nam
